Our Master piece is the only yearbook in the city with a large variety of full process color photos. All beautiful color portraits located in the senior section are taken by Beim Photographers. We consider our yearbook to be a perfect example of our theme "Weequahic Indians Love Success." Sincerely we know you will share our feelings. Enjoy the book because we enjoyed making the Legend a "Success".

OF

SUCCESS

One dictionary defines success as being a favorable termination of venture. Another says success is the attainment of wealth, fame, etc. Still another says success is a termination or result of any prosperous affair. So you see, each individual has his own definition of success and what this word means to him. Success to one could mean failure to another. In order to gain success, one must first aim his goals high and strive for the top in whatever he may choose. Some prefer the latter which states that success is the term or results for a favorable affair. In order to be successful one must hold firm to his ideas, beliefs, convictions etc. and do whatever possible to make dreams a reality. Once you have achieved success in your technology of the word, you must work equally as hard to maintain a level of success to your own personal satisfaction.

Being seniors at Weequahic, in just a few short months we will enter a new world of continuing educational dreams, employment and focusing on what we want our own lives to be and that of those who will directly be affected by that we choose. We will fully define and understand what success is and what it means to us. Success is being the best that you can be in whatever endeavors, working hard towards a goal that completely satisfies and meets our needs.

Success is strength and endurance to meet all attainable goals that we have chosen to pursue. We know that success is not an inheritance. We know that success is an individual task and each person must work towards his own goals. No matter how successful your ancestors are or were, you must achieve your own success in life. Don't let success overrule you or guide you into the wrong paths. Many people have ended up on skid-row because they were not able to face success with tolerance, understanding and acceptance that is so desperately important. Most of all, one must learn to be thankful for whatever has been bestowed upon him. Determine your own destination through success and what the word means to you in all phases of daily life.

S is for Strength — For in order to be successful, one must have strength to endure whatever pitfalls may come before him.
U is for Useful — For in order to be successful, one must have some usefulness for his ideas and goals in order to make them reality.

C is for Concern — For in order to be successful, one must show concern and interests for goals that he has set for himself.
C is for Competition — For in order to be successful, one must learn to compete with obstacles that seem impossible to overcome.

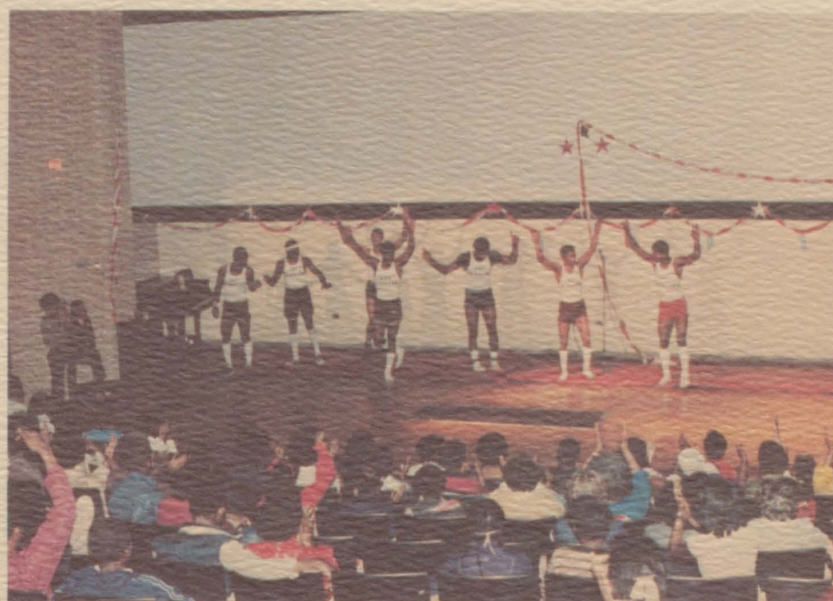

E is for Endurance — For in order to be successful, one must endure the tasks of accepting defeat and recognizing it as a step toward his goals.

S is for Sacrifice — For in order to be successful, one must sacrifice the hardships of dealing with everyday life and its problems.

S is for Satisfaction — For in order to be successful, one must be satisfied that he has reached his goals and aims in life to his own personal satisfaction.

BLACK PEOPLE

BLACK PEOPLE WILL ALWAYS SAY
WHATS UP OR HOW WAS YOUR DAY?
BLACK PEOPLE DON'T TAKE NO MESS
AND WON'T SETTLE FOR NOTHING LESS.
BLACK PEOPLE DO HAVE PRIDE
NOT A SHAME, OR TRYING TO HIDE.
BLACK PEOPLE ARE BLACK AND PROUD.
THAT'S REAL AND THEY DRESS TO KILL.
BLACK PEOPLE WILL STAND UP HIGH
AND HELP THEIR SISTERS AND BROTHERS REACH THE SKY.
BLACK PEOPLE ARE GLAD, NOT SAD;
EVEN THOUGH SOME ARE TREATED SO BAD.
BLACK PEOPLE WILL SUCCEED
BECAUSE THEY HAVE THE POWER AND WHAT THEY NEED.
BLACK PEOPLE HAVE STYLE AND CLASS
AND WORD IS BOND, THEY WILL PASS.
BLACK PEOPLE DON'T MEAN TO HURT,
ONLY WHEN THEY ARE TREATED LIKE DIRT.
BLACK PEOPLE ARE ME AND YOU,
THAT'S ALL IT TAKES AND WE WILL MAKE IT THROUGH.
AFTER ALL THIS, BLACK PEOPLE ARE THIS, BLACK PEOPLE ARE THAT.
BLACK PEOPLE ARE BLACK AND THATS A FACT ...

PRINCIPAL'S MESSAGE

Dear Graduates:

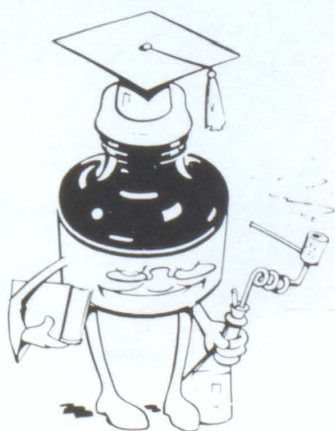

This 1983 edition of the yearbook illustrates the sincere spirit of cooperation which prevails at Weequahic High School. Members of the faculty, staff and student body have cooperated in this project as in all others and demonstrated the true spirit of comradeship, one would expect to find in a closely knit family.

I congratulate you on the publication of this pictorial record of our high school life during your senior year. In this book you have collected some of the best examples of the multi-faceted world of the post elementary experience. May it serve to keep alive precious memories of the past and to inspire greater achievements in the future.

I extend my heartfelt thanks to you. Moreover, the Weequahic Family joins me in expressing my very best wishes for continued success in your every personal and post high school endeavor.

Warm Regards

PRACTICAL ARTS DEPARTMENT

The Practical Arts Department prepares students for the year 2000 with concrete skills and consumer knowledge. The department attempts to provide each student with preparation, growth experiences and guidance for modern living through an instructional program which covers the technical, aesthetic, consumer, recreational, occupational, organizational and cultural aspects of our society. The department encourages "hands on" activities to provide specific vocational skills and competencies. Advanced courses are offered to strengthen student proficiencies for employment opportunities. Courses offered are: Architectural Drawing, Clothing I and II, Consumer Education, Cooperative Home Economics, Cooperative Industrial Education, Early Childhood Development, Foods I and II, Graphic Arts I, and II, Mechanical Drawing I and II, Metals I and II, Woods I, II and III.

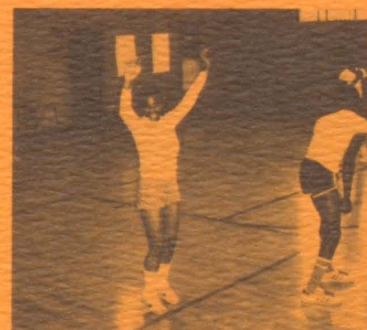

PHYSICAL EDUCATION

Physical Education involves the physical activities of running, jumping, kicking, throwing, batting, pulling, balancing and lifting.

Teaching physical education is not like teaching in any other area. Its object is to give the greatest possible development to a pupil's physical powers, habits and character. In accomplishing this we expect that the teacher will exercise initiative, ingenuity, and creative ability.

Physical education is mandated by the State Department to be part of the education process in each grade of the senior high school.

Every pupil must have successfully completed a year in physical education for every year in school.

HISTORY DEPARTMENT

The History Department offers students of Weequahic High School a broad spectrum of classes that encompasses the social studies curricula from Afro-American History to Psychology and Sociology. Our primary concern is to teach young men and young women to think critically for themselves and to arrive at a decision that is based upon fact, and not myth or prejudice. Do not listen to the soothsayer who preaches violence of hatred based upon half truths or innuendoes, but rather examine the facts yourself and reach your own conclusions based upon justice mercy and understanding of those who think differently than you do. You, the graduates of today, are the citizens of tomorrow and the success or failure of this country is largely in your hands.

THE MUSIC DEPARTMENT

Most of the students at Weequahic High School possess a high level of innate talent and many of the students harbor a sharp artistic sensitivity.

In the music department we seek to direct the students to first develop an awareness of their talent, sensitivity and potential. Secondly, after the students become aware of their individuality, the emphasis is put on nurturing the individual to grow intellectually and independantly through critical thinking and self-evaluation. The third phase is to motivate the students to continue, at some level, an interest and/or direct participation in musical performance.

To achieve our goals the music department offer a music major program as well as diverse music classes such as music workshop I and II, chorus, advanced mixed chorus; instruction in the instrumental families (strings, brass, woodwinds and percussion) band, marching band and jazz band.

Science Department

The Science Department offers a diversified program for all students, whether they be college bound or not. Here at Weequahic High School, we make available many opportunities for students with varying abilities, interest and goals.

In the Freshman year, students begin their study of Science with an activity-centered, "hands-on" approach to Science with the course called Physical Science. The Sophomore Year introduces the students to Biology or Urban Ecology. Both programs investigate the world of living things, with Urban Ecology stressing the topics: Conservation, Pollution and Energy Resources Alternatives.

The Junior Year becomes more rigorous with the study of Chemistry or Honors Biology are courses designed to the college bound student. Chemistry is a laboratory course and investigates such topics as chemical reactions, acids and bases, atomic structure and problem solving. Honors Biology is designed as a second year Biology course involving a more detailed study of the topics covered in the first year of Biology.

Seniors have the option of taking either A.P. Chemistry, Honors Physics, or Physics depending on the students interest.

ENGLISH

In mastering English, one has become skilled in the areas of verbal and written communication. Here at Weequahic High School, the English courses are geared and structured to meet the diversified needs of our students.

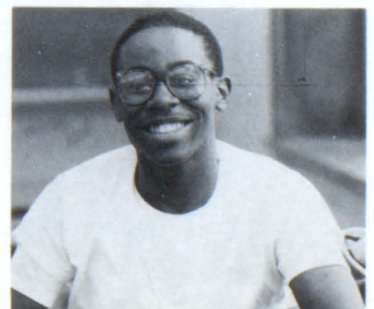

This task is accomplished through the careful planning and presentation of course objectives, proficiency expectations and meaningful units.

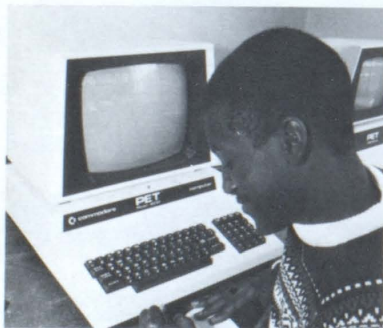

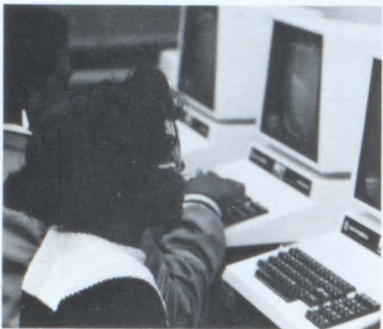

In addition to our regular English courses, the curriculum includes: Journalism, Speech, Drama, Creative Writing and Honors English.

One of the most diversified levels of instruction takes place during the Senior year, in which our instructors are preparing students for college academe or the work world.

In addition to the study of literary masterpieces, and a strong emphasis on the basic skills, a standard item is the compilation of a formal Research Paper for the graduating senior class.

The teachers of the English Department believe that if every student can leave Weequahic High School with skills that relate to each of his goals, our objectives have been accomplished.

MATH DEPARTMENT

“Minimum basic skills” seems to be the center of concern for the Mathematics Department this year. It’s more than just Back to Basics. It’s communication, records, feedback, individualized teaching, and follow-ups.

Students are still required to take a Math exam their junior year to qualify them for graduation and, if required, 11th year Review for those who need additional instruction.

Amidst all this remedial work, courses like Advanced Placement Math (MAP), trigonometry, and geometry are still managing to survive in the curriculum. These are your basic college prep courses.

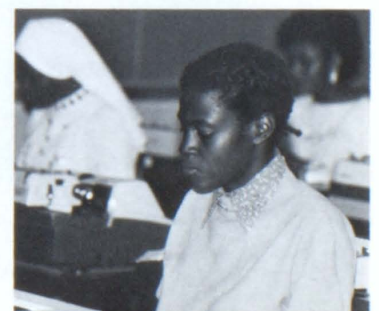

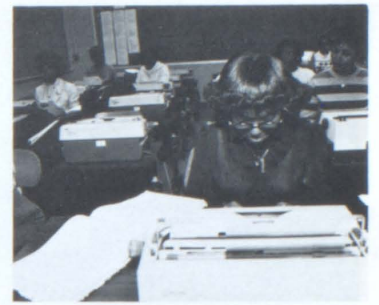

Tutoring is a vital part of the Compensatory education program in the Math Department and usually accompanies courses like General Math and Pre-Algebra.

Consumer Math is a practical elective offered to grades ten through twelve. In this course, the student learns how manage money, how to work percentages, discounts, mark-ups, mark-downs, budgeting, banking, and investing. Certainly in this age of the calculator, the study of Math is holding its own.

BUSINESS

Business as usual in the Business Department means preparing students for the job market, 21st century and before. Many students are in the job market right now, placed with the help of the course Cooperative Office Education taught by Mr. Berger. Students spend half a day in school and half a day on the job with Mr. Berger supervising their movements.

The department feels that every student should be exposed to a course in business, because we all are consumers and can use the knowlege gained from a business course. The Business Department has something for every student: Personal typing, Business Machines, General Business, Business Math, Book and Record Keeping I and II, Machine Transaction, Office Practice, Stenography I and II, Business Communication and Data Processing.

GUIDANCE FOR SENIORS

For some high school students, the Guidance Counselor does not become significant until the senior year. At this juncture, they become concerned about credits, too much work from teachers and the unexpressed fear or what will happen to them after graduation.

The Guidance Department anticipates these concerns and many opportunities are provided to assist the students in making decisions which meet their interests, skills and goals.

Major activities during the year have been;

Group and individual conferences with representatives from colleges, career schools, military service, etc.

Consistent use of the computer information system for up-to-date college and career information according to specific needs.

Accompanying students to off-site college/career conferences.

Financial Aid Workshops (for parents and students).

Alumni Day Program featuring recent graduates.

Informing students about non school related programs or projects to facilitate cultural and/or social awareness.

An Indian Prayer

O' GREAT SPIRIT,
Whose voice I hear in the winds,
And whose breath gives life to all the world,
hear me! I am small and weak, I need your
strength and wisdom.

LET ME WALK IN BEAUTY, and make my eyes
ever behold the red and purple sunset.

MAKE MY HANDS respect the things you have
made and my ears sharp to hear your voice.

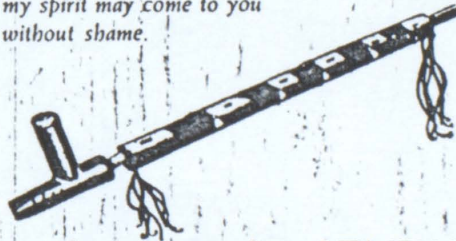

MAKE ME WISE so that I may understand the
things you have taught my people.

LET ME LEARN the lessons you have hidden
in every leaf and rock.

I SEEK STRENGTH, not to be greater than my
brother, but to fight my greatest
enemy — myself.

MAKE ME ALWAYS READY to come to you with
clean hands and straight eyes.

So WHEN LIFE FADES, as the fading sunset,
my spirit may come to you
without shame.
